Project Demo Planning

Date	15 March 2026	**Team ID**	SWTID-2026-3268
Project Name	Implement Client Script & UI Policy (Incident)	**Maximum Marks**	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This plan demonstrates the Incident Client Script and UI Policy features in a clear sequence.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the Incident management requirement and explain the need for client-side validation and dynamic field behavior.	2	Team Member 1
2	Solution Overview	Explain how Client Scripts and UI Policies are configured and how they improve the Incident form experience.	3	Team Member 2
3	Client Script Demonstration	Demonstrate field validation, automatic field updates, and condition-based behavior using Client Scripts.	4	Team Member 1
4	UI Policy Demonstration	Demonstrate mandatory, visible/hidden, and read-only field behavior using UI Policies.	4	Team Member 2
5	Integrated Incident Demo	Show the complete Incident form workflow with Client Scripts and UI Policies working together.	3	Team Member 3
6	Results & Conclusion	Summarize the implemented features, observed results, and key benefits of the proposed solution.	2	Team Member 3

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the Incident form problem and the purpose of Client Script and UI Policy.
2	Solution Overview	Explain the proposed configuration and the role of Client Scripts and UI Policies.
3	Live Feature Demonstration	Demonstrate validation, field updates, visibility, mandatory and read-only behavior.
4	Q&A; Session	Answer questions about configuration, conditions, testing, and project results.
